MANY BEANS-CORN

Continued from page 1

houses of the Glades area, have closed the potato job for the fall season, winding up the past year's work. The harvest was fairly successful, but yield was not so heavy on No. 1's. Prices were at such an amount that some growers are noted.

The eastcoast growers are having a big trade for their products. The bean crop is good and an average of 35 cars a day moving out.

Some truckers have purchased cargoes on the state market, and then transported them to other selling points for resale. Tampa, Lakeland, Sanford and Jacksonville have been the sales points.

The United States Department of Agriculture the past week issued guides for the planting of 12 feeding vegetable products, and recommending 253,500 acre plantings; and nine crop acres for the processing of 1,700,000 acres.

It recommends no reduction in acreage for lima, cauliflower, celery, peas, peppers and spinach, and a 2 percent increase in tomatoes. Reduction on commodities are: Cabbage, 2 percent; Cucumbers, 10 percent; lettuce, 5 percent; snap beans, 13 percent, carrots, 15 percent.

COMMISSION GIVES

Continued from page 1

tion and Safety, was enacted, and organization of same will go forward. This new group and will be a pretty important one for the city when its gets to functioning.

An ordinance relating to prisoners attempting or escaping while under guard; or persons resisting arrest, interfering with officers in the line of duty, was enacted. This is a police protection move.

A schedule which sets the duties of the Commission head and city employees, was ordered by the clerk, and made a part of the session minutes.

The new prison stockade, which has been constructed in a portion of the old water works plant, has been completed and same will be turned over to the Police Department for use the coming week.

Present pumps being used at the city rock pit proved inadequate for the job assigned, and were costing too much to keep in repair and operation.

Commissioner Baldwin reported that he had leased a Cat-pil pump unit for a thirty day period, with an option to buy. The city is now getting out enough rock each month that at market price would cost the city \$5000.00. The rental and operation costs the pump at \$1600.00 a month, appears to be a safe profit venture.

Permission was given to Deputy Constable Mike DeSanti, Bay Police, to have police radio connection with the city station, for \$3.00 a month.

The officers to provide their own car units, keep their own unit maintenance and their proportion share of frequency tests. By giving this concession the two new car units, will give a total of six reporting units, and will add to the efficiency of the police department work and public information facilities.

Building Wall on Canal at Bridge

The city is rock ribbing the north shore of the Hillsboro canal bridge to way down to the north shore, and to provide space for beautification purposes by the Belle Glade Garden Club and possibly other civic club assistants.

More rock is also being hauled onto the Thousand road, to further improve that highway. Preparations are being made for starting several other road improvement jobs in the very near future.

Peggy Swin Howard

Mrs. Peggy Swin Howard was a high school senior in a sorority at the University of Miami when she broke her own record of 20.0 in the 30 yard breast stroke when she was timed at 12.8. Peggy was high scorer for her sorority, Alpha Omicron Pi, with 24 tallies which represent first in the breast stroke form.

30 yard breast stroke, 30 yard over-arm, and diving.

Peggy is a senior at Michigan State College at East Lansing, Michigan.

HEALTH OFFICER

Continued from page 1

Commissioners that in the Thomas case, a sheriff deputy took the negro, who was shot in the leg, to the Belle Glade Hospital where the wounded man, captured as the slayer of a police negro woman several days earlier, was being waiting several hours. Hospital authorities deemed the wound minor and advised the deputy that the negro could be moved.

A Herald representative called to W. P. Risk, chairman of the Western Palm Beach County Hospital Association, Thursday morning, and inquired if he desired to make any comment on the case.

His and his energetic reply was, "No Comment" at this time, but we will request a hearing before the Board of County Commissioners.

Boy Scout News

Boy Scout Troop 22 was recently transferred to the Commercial Methodist Church for supervision. For the past several years it has been sponsored by the American Legion.

Troop meetings will be held every Monday night at eight o'clock in the Scout hut.

W. L. Taylor will be scoutmaster and Max Glenn will be assistant. Troop committee are: C. W. McDonnell and A. Thorne.

Jack Murray recently took over as scoutmaster of Troop 88, sponsored by the Baptist Church. Eugene Post store, will remain as assistant. The past scoutmaster, Norman Haydon, will join the troop committee.

Troop 88 meets every Tuesday at 7:00 P.M. at the Baptist Church.

Local Masonic Lodge Has Fine Growth During Past Year

At the meeting of Belle Glade No. 273, F. and A. M., January 25, Secretary W. P. Risk, read the annual report which is to go into the Grand Lodge, for 1948 record.

Under John Kirk, as Master, the lodge did well last year, the report showing much activity in degree work. Thirteen men were given the Entered Apprentice degree, 14 the Fellowcraft, and 17 the Master's, and the total membership is 145.

Two additions were made by affiliation, there was one death, and one died initiated.

Last fall the Lodge put in a field of beans. The profits go to the proposed Temple building fund, and a goodly sum was realized.

Decision was made that a spring crop should be planted, with Buster Ingram handling the deal on donated land. Al Kirchman and W. P. Risk were re-elected to the Temple Board of Directors for two years.

The Master ordered the Charter draped and resolution to be drawn in honor of the memory of Dr. William Buck, a charter member of the lodge.

As a Masonic Educational program feature, L. E. Will, the Master, presented Jack Johnson as the evening speaker. He spoke on "Our Masonic Constitution." This is the first time such a dignified has ever been presented to Glades lodge.

The Master informed the lodge, that on nights when degree work did not prevail, that there would be special speakers provided to present Masonic sub-

Rogers Seeks Opinion of Friends and Constituents of Sixth Congressional District on Vital and History Making Legislation Before The Congress

1. Do you favor Congress increasing the minimum wage law from 40 cents per hour? Yes No

2. What do you think Congress should do about the Taft-Hartley Act? Should it be repealed? Yes No

3. Would you favor the reenactment of the Wagner Labor Act? Yes No

4. Do you favor extending rent control in our area for another year? Yes No

5. Should Congress pass a law providing Federal aid for education? Yes No

6. Do you think Congress should pass a compulsory health insurance system (commonly referred to as "socialized medicine")? Yes No

7. Do you favor a voluntary system of health insurance? Yes No

8. The President recommended Universal Military Training. Do you believe Congress should pass a law calling for U. M. T.? Yes No

9. Are you in favor of a 70 Air Group Air Force as advocated by the Secretary for Air? Yes No

10. Do you think Congress should pass a law establishing price controls? Yes No

11. Do you favor an increase of Income Taxes as advocated by the President? Yes No

12. Do you think Congress should repeal the luxury tax on such articles as baby supplies (baby oils and baby powder)? Yes No

13. Do you favor Congress passing a law repealing the 25 percent tax on all telegrams and the tax on telephone high scores? Yes No

14. Do you favor the extension of the Social Security System as recommended by President Truman? Yes No

15. Do you believe that Congress should authorize the extension of consumer Credit Controls on such articles as washing machines, refrigerators, etc? Yes No

16. Do you favor Congress passing an Act outlawing the Communist Party in America? Yes No

17. Please list in order of importance the three measures to which you think Congress should give first consideration.

NAME

COSMETIC MACHINE USED TO BLEND INSECTICIDES

One of the recent improvements made in the field of insecticides and fungicides is a new mixing process known as blending.

This is a mechanical process rather than a chemical one. It is an adaptation of the same type machines and systems used by manufacturers of paints, face powders and other cosmetics.

Stacy's in Pahokee has recently purchased a blending machine, the necessary equipment at a cost of over \$10,000. It consists of a screening device, pre-sifter, two mixing units, and a high speed blender.

After first screening the material, it is run through a rotating screen and the elevated to the first mixer. Here it is partially mixed before it is passed through the blending mill, which second mixer completes the job and acts as an astringent mixer.

A real difference between the new method of blending and the older method of mixing is in the addition of the blenders and A Thorne.

This high speed attrition mill performs in the dry powder field in a manner parallel to the homogenizing process in the liquid emulsion field. Its purpose is to disintegrate all lumps and pellets and insure complete dispersion of all ingredients throughout the entire mixture.

Local Masonic Lodge Has Fine Growth During Past Year

At the meeting of Belle Glade No. 273, F. and A. M., January 25, Secretary W. P. Risk, read the annual report which is to go into the Grand Lodge, for 1948 record.

Under John Kirk, as Master, the lodge did well last year, the report showing much activity in degree work. Thirteen men were given the Entered Apprentice degree, 14 the Fellowcraft, and 17 the Master's, and the total membership is 145.

OBSERVATIONS
Continued from page 1
and harvest work. A million pounds of flower seeds are sold each year, and a big proportion of them come from the Golden State. In California plants mostly blooms, while here in Florida it is mostly plant, due to the climatic conditions.

Lee O. Dry, who has head of the Belle Glade hospital for a year, is now connected with the Aldmore Crippled Children's Hospital at Atlanta, an associate in the chain of the Georgia Crippled Children's League of Georgia. In renewing his subscription to the Herald he writes, "Permit me to congratulate you on the continued fine news coverage of your newspaper. Mary and I always read before the Atlanta Journal or Constitution on the days of its arrival. After reading we pass the Herald to Dr. Lucille Martin, the U. S. Children's Bureau, who is also interested in the Florida and the Glades."

When one goes into the groceries and markets to get the week end meat supply and groceries, and the salesman makes the computation on the adding machine, it does show that there is a gradual decline in prices. Meats are the commodities which show the greatest decline. Bags may not increase in size, but they are filled with the goods that one can now buy at more reasonable prices.

Time was when it was said that business would never go north of the Canal bridge on Main street. Present indications are that there will be much business up that way are long. Bill Pierce, in his own little colony, has an active group of people engaged in the restaurant, laundry, grocery and produce market, ramie processing, and his own light plant. Bill has secured equipment which he will soon use in enlarging his own power plant.

The budget of the National Park service for 1950 will amount to seven and a half million dollars, of which the Everglades National Park and Jefferson Memorial park in Florida, will respectively be given \$33,000 and \$3,000.

James J. Davis, former senator from Pennsylvania, and later Secretary of Labor, once uttered these sage words: "The time to divide up wealth and step work would be two weeks before the end of the world." That sentiment might not please Joe Stalin and his ilk followers.

The use of the drunk-o-meters which are now being used in many city police departments, show that six bottles of beer, or six ounces of bonded whiskey, make the average American drunk or woosy-eyed. The evidence secured by this machine is now creditable evidence in the courts of 18 states. A tippler cannot get away from the positive tests. Here is once where breaths do tell the tale.

Have you heard of the new starch which keeps garments crisp through at least eight washings? . . . Adds to the longevity of the materials besides! Instead of lumps, like that we have always used, the new starch comes in liquid form and must be diluted. Its base is a synthetic resin, which permeates rather than coats the cloth as the old starch did. It was put on the market by a starch company, in co-operation with a rubber company which produced the original resin.

Ported on the walls of the Belle Glade Police department is a code which regulates the behavior and dress of the members, violation for which means a buck in the kitty. Some of the regulations called for are: Clean shaven faces, black neckties and black shoes, well pressed uniforms, equipment in useable condition, and punctuality. Some of the officers have slipped on occasions, and even Chief Charlie, has been caught negligent.

One of the touchable things at the funeral services of the late Dr. W. H. Buck was that a dozen teen age boys marched in and were given seats. Without a doubt most of the lads had come into the world while their friend was standing by on those occasions.

Two workmen at an air port were engaged in conversation, when one asked the other if he had about the woman who had backed into the propeller of a plane. The other said no, what happened? The said no, what happened? The other replied die-as-for.

Don't forget you have a date at the old Everglades theater when the Lions club presents its annual benefit show: In the "Cabaret Beauties" you will

be given a program that will be pleasing and entirely different from the customary bill presented by the Lions in their entertainments.

Funeral Director Sam Berry states that there were more deaths in the Glades area, last week than he has ever known in any other like period. He indeed was a busy man during that period.

If the officer staff of Belle Glade Lodge of Elks continue work, as they are now doing, they will make many of the contending teams go some to win out in the District contest for top honors. A little more coaching on enunciation vocalization and emphasis will surely make the staff a top team. Elks have sure done well during the three years of its establishment.

On coming crops are growing nicely under the favorable weather conditions. Those having farming draws help them in the way of moisture. Farmers who are growing lettuce report that many of heads are developing so large that they cannot be packed in crates to meet the marketing requirements. This would indicate that lettuce was doing big things, if not profitable.

Stockmen from the Glades are moving much of their cattle to the Arcadia and Kissimmee markets for auction sale. Prices not quite as high as last year, still enough to show a margin of profit.

Our sister city to the north, Pahokee, seems to be taking on new life, in the way of erecting new homes, business blocks and parking lots. The present boom being the greatest it has had for many years.

Do you know what a coordinator is? Here's the definition, "A man who brings organized chaos out of regimented confusion."

An Indian guide in the Pacific Northwest was asked a question by an appreciative New York banker for favors received. One day the watch stopped ticking and the Indian took off the back to see if he could locate the trouble. He poked around in the works and finally found a dead bug. Hurling the bug in disgust, he grunted: "No wonder him no work. Engineer dead."

The official family of the Everglades Drainage District now contains four new members, all appointees of Governor F. W. Warren. If these men can perform the duties as faithful and as well did their four predecessors, they replaced, who tendered resignations to the Governor, they will do a good job. With the pending Flood Control project facing them, they have plenty of work to keep them busy in that work, as well as in the protecting and advancing the interests of the district. The old board left a good foundation for them on which to erect a greater and more efficient and productive district.

Colin English, the new coordinator of higher education in the state, will draw a salary of \$6500.00 a year, and an expense of \$1400.00. His salary will come out of the Governor's contingent fund.

Well, it is now President Harry S. Truman, for four more years, in his own name and right, because the electors of the States expressed their preference for him over Thomas Dewey. His inaugural address was a "peppy" one and he minced no words in telling the world, what he thought of Communism. Editors of the large city papers gave his address a favorable comment, but thought it was open to many different interpretations. The favorable word which began blowing his way before election which he is freely talking on local and national issues. You know, he is our President.

Fuller Warren has a lot of ideas floating around in that head of his, which are coming out each day. He stresses he is no friend to roaming highway cattle, or are the "game hog" on his preferred list. He sure is stirring the sticks in the old dead political woodpile, and is finding some of the sticks and chips only good to be cast out as useless. Too much dry rot in too few value in them.

Game Commission
Fee Show Big
1948 Income

Cash receipts of the State Game and Fresh Water Commission soared to \$694,528.28 during a six month period ending the last of December, Bart Gruber, the agency's chief administrator announced. This figure, Freedom pointed out, represents

an increase of more than \$100,000 over the same period last year when receipts totaled \$587,834.50.

The report shows that fishing licenses accounted for most of the increased receipts. Fishing has brought in a total of \$342,865 as compared with \$239,217 last season — an increase of more than \$70,000.

Hunting license receipts were also higher than last year, — \$291,239 as compared with \$285,561 last year.

Pittman-Robertson federal funds allocated to Florida during the six-month period totaled \$15,499. Receipts from the federal aid fund, Peeden said, will reach well over \$100,000 during the next six months.

Funds derived from retail fish dealers' licenses increased \$3,450. These sales aggregated \$3,475 as compared to \$5,040 during the previous period.

The collection of courts costs remained substantially the same as last year. They totaled \$9,617 this year, last year \$9,322 were received from this source. Boat for hire license funds jumped from \$6,502 to \$7,952.

Graber is Displaced
In Lead for January
Black Bass Contest

Bass fishing on the big lake has not been so good as to sink below the past week, but the driver of the Mercedes Bread Wagon in Belle Glade managed to get hold of a big one. This caused Bill Graber out of the lead in the Parrish and Davis fishing contest. The bread man's specimen weighed seven pounds and one ounce, while Graber was not to be downed. He is after that big trophy fellow which he has spotted out in those weeds. He hopes to induce it to take his bait offering.

The State Game Commission has decided that coon are overpopulated, and are doing too much damage to farmer's crops and hen coops, so it has issued a directive making an open season on the ring tailed pests.

Boxing at Legion
Hall This Evening

There will be boxing matches at the Legion Hall, tonight, with four events on the card. The main bout will be between Bill Fox and Charles Munn, at the 147 pound weight. Aron Harris and Kid Lanton, 125 pounds; Kid Silver and Charlie Kid, 150 pounds; Sam Bell and George Root, 130 pounds will appear in the preliminaries.

Patrons who attend the initial fights two weeks ago saw some exciting bouts and enjoyed a fine evening of entertainment.

Restocking Honds
Deer Locations

Sixty Wisconsin white-tail deer were released recently in Hardee and Hernando counties by the State Game and Fresh Water Commission.

Commission Director Ben C. Morgan said the shipment was part of 400 imported deer to released this winter in "short" areas throughout the state.

Morgan said 300 deer had already been bought by the commission and that an additional 100 probably would be bought. They were purchased at \$90 a head from a Wisconsin game warden. Money for the deer came from the commission's restocking fund. Morgan said, however, he "hoped" the additional hundred deer would be paid for by funds from the livestock Sanitary Board.

The livestock board last year paid for some 300 white-tails to help replace the more than 8,000 slaughtered during the tick eradication program several years ago.

Dike Fisherman
Get Differences
Adjusted and Can Fish

As a result of a conference held here between the officials of the Florida Game and Fresh Water Fish Commission and around 150 commercial fishermen, differences and misunderstanding, which caused a flare up and the suspension of the permits to fishing, were amicably adjusted.

Chief Fish Biologist Jack Gruber promised the group that pending permits suspended Jan. 17 would be renewed, probably about Jan. 21.

In return the fishermen agreed to supply the Game and Fresh Water Commission with the fish they had been needed to stock other Florida waters.

Williams Hendry, state representative for Okeechobee county, who has been active in getting the fishermen and the state commission together, said the whole situation was the result of an honest misunderstanding.

Fishermen, he said, were under the impression their permits did not allow them to give scale fish to anyone because the permits read that such gifts or sales would bar them forever from fishing in the lake.

Dequene told the meeting that the taking of bream and bass for the stocking of other waters was the good of the Lake Okeechobee fishermen and that their permits did not bar taking fish for this purpose.

John Whiddon of Moore Haven speaking for fishermen, said reports of expected violence from some fishing crews were unfounded and the figment of somebody's imagination.

Pahokee Elks Prove
Fine Hosts to Big
Crowd of Elks

In the Elks order, at the start of this new term, the Grand Exalted Ruler, established his policy of work, and then passed it down to the state Exalted Ruler, he to the District Exalted Ruler, and he to the subordinate lodges, so that when all these "grass hats" make their addresses, Elksdon pretty near knows the score.

Pahokee Elks on last Friday night, with many visitors from surrounding lodges of the south district, Ft. Pierce, West Palm Beach, Lake Worth, Lauderdale, entertained Edward B. Baker of Jacksonville, president of the Florida Elks Association and was the main speaker of the occasion in a very excellent presentation of the Elks program.

Past officers in attendance were Bill Wall, Alex Arnette, Ed O. Williams, Arthur O'Hara, and Frank O'Connell, who took introduction honors. No one went hungry at the banquet pits, as there was plenty of chicken, ribs and other filling provisions.

Those in attendance from Belle Glade were: Lou C. Belzner, Fred Simmons, James L. Gay, George Townsend, John Tabli, John Gledhill, Louis and Paul Kirchman, Red Imes, Bob Eden, Frank Dooley, Morris Shulman, Bob Riedel, Clyde Clayton, W. K. Whittick, Harry Shugg, Walter Hooker, and Cowart.

Help Yourself
Wouldn't you like to settle down in a job that really means something as far as your future is concerned? Any ambitious young man would. Here's how . . . simply take full advantage of the splendid opportunities now being offered in the new U. S. Army and U. S. Air Force.

and Mrs. A. L. Gatlin spent the
week end at Fishcating Creek.

Mrs. Josephine Ratley has re-
turned from Tampa where she
visited Mr. and Mrs. Charles
Lauchley and daughter Gwend-
lyn.

Miss Maxine Walker of Mil-
ami was the Sunday guest of
Mrs. Edna Walker and family.

Mrs. F. W. Cross, Jr., is a
new bookkeeper for Evans &
Rogers at the South Bay Grow-
ers, Inc.

Mrs. C. A. Thomas and in-
fant daughter Martha Lynn
have returned to their home
at Lake Harbor from the hospi-
tal. Mrs. H. A. Drawdy of
Madison, aunt of Mrs. Thomas,
has been keeping house in the
absence of Mrs. Thomas.

Mrs. Howard Leonard of Lake
Harbor has gone to Lakeland
to make her home.

Larry Morrison is recovering
nicely from a bad cut on his
knee which required the atten-
tion of a physician and several
stitches to close the wound.

R. C. White, night police-
man at Belle Glade, and son
David are both confined to their
home with illness.

Mr. and Mrs. Owen C. Knight
and daughter Alice of Dana
were recent guests of Mr. and
Mrs. Ed Leublean.

Alice Louise Hyde celebrated
her thirteenth birthday at a
party Wednesday evening.
Twenty-five of her friends from
the seventh and eighth grades
at the South Bay School at-
tended. The young people were

ELSIE'S FAMOUS SON

The name is Beaugard and he is the son of Elsie, famed
Borden Cow. Elsie and Beaugard will greet visitors in their
swanky nursery-boudoir at the Florida State Fair in Tampa,
Feb. 1 to 12. Don't fail to visit them when you attend the fair.

entertained with games, a wel-
ner roast and cake.

Mrs. L. L. Simmons and
granddaughter Mary Lou Mott
have returned from a week's
visit with Mr. and Mrs. M. C.
Garrett at Fishcating Creek. Mary
Lou is quite ill this week.

Mr. and Mrs. Flavell Miller
and son Billy of Daytona Beach
were week end guests of Mr.
and Mrs. C. E. Crichfield and
attended the races at Fort Lau-
derdale with their hosts.

are moving into the Register
cottage recently vacated by Mr.
and Mrs. Paul Dillow. The Dis-
partment at the Standard
flats have taken the garage
Garage on State Road No. 80 at
the western end of South Bay.

Miss Marjorie Touchstone has
gone to Fort Myers to visit her
parents Mr. and Mrs. Paul
Touchstone for a week.

Reduced Shipments Of Produce Reported

Shipments through the South
Bay depot over the Florida
East Coast Railway are falling
off somewhat from shipments
earlier in the month.

Last week 2 cars of cabbage,
4 cars of mixed vegetables, 2
cars of escarole, 4 cars of celery
and 1 car of lettuce were
billed out of the South Bay
station.

Quite a little celery is being
shipped by truck.

erts of South Bay, Mrs. Mc-
Graw, Mrs. Margaret Dam of
Clewiston.

New Jersey Tourist Seeing Florida

William L. Reed of Pleasant-
ville, N. J., is the house guest of
his son-in-law and daughter,
Mr. and Mrs. Conrad S. Cle-
mans. The Clemans are taking
their father on a tour of Flor-
ida.

Recently they made a trip to
Miami and Miami Beach, Key
West and home via Tamiami
Trail through Naples. Monday
they attended a beach picnic
as guests of Mr. and Mrs. J.
W. Godwin at Fort Pierce.

Sunday they attended the
meets at Fort Lauderdale. Later
in the week they enjoyed a
two day trip to Bok Tower
and Silver Springs.

Tax Assistant to Visit South Bay

James M. Owens, Jr., tax as-
sessor, announces that he will
have a representatives at the
South Bay Town Hall on Feb-
ruary 16 from 12:30 p.m. to
3:30 p.m., to assist tax payers
in filing applications for ex-
emptions as returns from tan-
gible and intangible personal
property.

His representative will be at
Lake Harbor from 10 a.m. to
11:30 a.m., on February 16, for
the same purpose.

Going Home Via U. S. Navy

In the post-war repatriation of exiled Korean civilians and Japane-
se troops to their homelands, U. S. Navy LST's made seven trips
to accomplish that mission of mercy. Photo shows crew mem-
bers of USS LST 1089 watching Korean civilians as they prepare
to board the vessel prior to the last trip. (Courtesy Navy Photograph)

GOOD BUSINESS

GOOD ACCOUNTING

Stuart Chase, the well-known economist, has said: "Once a business be-
comes too big for one to handle personally, accounting takes over the job."

American business could not have prospered or grown to its present
size without accounting.

Advising business, big and small, on management problems involving
accounting is an important part of the work of most Certified Public Account-
ants. They help management keep expenses in line with income . . . pay the
correct taxes (not too little and certainly not too much) . . . cut over-all costs.

The CPA's work can help business efficiency and economy—which in
turn may result in lower cost, lower prices, and greater profits.

Interested readers may obtain the names of those persons who are authorized to practice
public accounting by writing the Secretary, State Board of Accounting, Room 903, First
National Bank Building, Miami, Florida.

If It's Blended! It's Blended!

What Are Blended Insecticides And Fungicides ?

Blending begins where ordinary mixing ends.

Blending in contrast to the old method of mixing combines
pre-sifting and screening with ordinary mixing.

Blending begins here, by passing the entire mixture through
the high speed blender where all pellets are disintegrated and
the entire mass reduced to microscopic fineness.

In Stuckey's SUPER-BLENDING process we go a step far-
ther by discharging the blended product into a second mixer in-
stead of a stationary bagging-hopper.

This process not only produces a mixture of the greatest
possible uniformity in each bag, but also serves as an aerating
mixer to insure fluffiness, thus rendering it in perfect condition
for distribution by airplane or ground dusters.

We are the first in the Glades to install this new system in
order to bring you the great advantages of SUPER-BLENDED
insecticides.

Come in and inspect our equipment today.

All Stuckey Pesticides are Blended At no Additional Cost

At one time or another most of us be-
come upset and jittery due to over-
wrought nerves. This makes us irritable,
restless and worried. You can't do your
work well the next day, if you tense and
worry through the night and don't get
the rest you need. At such times why
not do as so many thousands have done
for over sixty years—try

Miles NERVEINE
Miles Nerveine is a mild but effective
sedative that helps soothe overwrought
nerves and permits refreshing sleep. It
has brought restful nights and peaceful
days to thousands. Ask your druggist for
Miles Nerveine.
Have it on hand and be
prepared next time tense
nerves threaten to keep
you awake or make you
nervous. CAUTION: Use
only as directed. All drug
stores have Miles Nerveine.

MILES NERVEINE
